## Who We Are

With the service concept "Translation for Industry" since 1999, IndusTrans is a leading language services and technology solutions provider to the world's largest and most recognized companies. IndusTrans develops Internet-based collaborative workflows that can enable quality translation, high productivity and reduced costs. More importantly, IndusTrans has strict confidentiality policy in place to protect data and information that our clients have entrusted to us.

## Our Mission

IndusTrans seeks to be a single-source language solution provider for all our clients. By providing the highest quality translation and localization services and employing productive workflows, we ensure the successful execution of each project we manage. By using our cutting-edge workflow technology to automate many project management tasks, we also minimize the project management efforts.

## Services Portfolio

IndusTrans offers comprehensive service portfolio:

- ◆ Website localization
- ◆ Software localization
- ◆ Industry-specific translation
- ◆ Multimedia and e-Learning localization
- ◆ Desktop publishing (DTP)
- ◆ On-site translation and interpreting
- ◆ Turnkey project management

# IndusTrans

Translation for Industry

## Why IndusTrans?

### Quality and Reliability

Our reputation for high quality and on-time delivery is unsurpassed in the industry, and our efficient processes and methodology ensure we maintain competitive edge every day.

### Tools and Technology

IndusTrans uses IndusTransCAT, our sophisticated workflow and translation tool that streamlines the localization and translation process. Additionally, we are highly skilled in the use of all major industry technologies (including all major CAT software such as SDL TRADOS, and DTP software such as FrameMaker, InDesign).

### Scalability

With over 30 full-time translators, 52 certified part-time translators, 4 customer service personnel and 5 DTP clerks, as well as a pool of more than 800 linguists, IndusTrans has the resources, infrastructure and business systems to support various different language needs.

### Competitive Pricing

Thanks to low overhead, technology innovations and streamlined workflows, IndusTrans can offer all our clients highly competitive pricing without sacrificing quality.
